FINNAN HADDIES!

Best in the City because they are home cured and fresh each week. Boston Haddies are apt to be old before you get them, and they are pickled too much to suit the taste, in order to preserve them. Ours are not so. We see each fish before it is cured and know it is fresh stock. They are pickled just enough to suit the taste and the best way to prove these statements is to give us a trial order. We feel sure the quality of our Haddies will convince you we are right.

SUGAR.

Sugar is the most effective of all fat producing agents.

A Strengthening Remedy.

In England the old time cure for smallpox and measles was a sound thrashing. There are English people still living who were treated for measles in their infancy by frequent whippings by their parents.

An Unfounded Rumor.

The rumor to the effect that Dr. E. H. Whitaker of Barre has left that thriving village to avoid the result of the Bench of Promise trial at the Opera House on Friday evening, November 18, is unfounded. The Doctor is in the best of health and spirits and proposes to be on deck every moment of the trial, and he will make it exceedingly interesting for the plaintiff and her hired attorney from Massachusetts.

It should not be forgotten that this is a Mock Trial under the auspices of the Vincitia Club, and that every moment of the two hours and more will be exciting, instructive and fun-provoking.

Insects of Borneo.

The worst insect infested neighborhood in the world is the coast of Borneo. The strengths of that region are at certain seasons unavailing because of the clouds of insects which fill the air and make life unbearable.
